the IFODS
International and French Oncology Days
Les Journées Franco-Internationales d'Oncologie

Dear friends,

The scientific committee and I are particularly honored to welcome you to Paris for 'The New IFODS 2018!' (Before New ICACT) from 13th to 15th June 2018.

A large number of Scientific Societies involved in the fight against cancer will be meeting together to give you all the necessary information for your daily practice and give you the best medical training in Oncology. Many of the top international experts in the field of Oncology will also be present, thus contributing to very high-level discussions!

We look forward to these three days of oncology training being both friendly and highly constructive through their scientific exchanges, contributions and discussions.

We are particularly delighted to present new subjects such as medical-economic topics and sessions devoted to research and therapeutic education. We have also opened our doors to patients' associations to give them the opportunity to exchange with professionals.

A special session will be organized in close cooperation with AERIO and ESMO. We will be awarding the "Claude Jacquillat" prize as is custom every year.

Following proposals that were made, this congress will adopt certain ASCO practices and hold special dedicated sessions similar to the "BEST of ASCO – Meet the Professor" sessions. These will be organized together with "La Lettre du Cancérologue" which has obtained the rights. The new Congress will change dates and now be held following the ASCO congress.

This new organization of the Congress will be structured around multi-disciplinary sessions which will provide you from A to Z with all the information you need to care for your patients. We are also providing simultaneous interpreting so that every speaker may make their presentation in French or in English, as they prefer, thus meeting the expectations of all the participants.

We look forward to seeing as many of you as possible and sharing a very pleasant three days with you in June 2018! Please do not hesitate to talk about this Congress to your colleagues so that they also may attend to the 'The IFODS 2018!'

With our sincere thanks for your support.

Submission Guidelines

- **Abstracts** have to be submitted electronically and in English
- **Abstracts** received after the deadline (April 30th, 2018) will not be considered
- Supply as much information as possible: the precise subject of study, methods used where appropriate, summary of results obtained, conclusion
- As it is assumed that original work will be presented, no bibliographic references are necessary
- Selected **abstracts** will be published in the abstract book exactly as you submitted it. Therefore, proofreading is essential, no modification will be possible after submission.
- Your **abstract** should not contain accents or any other invalid character, which would not be part of the English alphabet.
- Your **abstract's** text should not exceed 3,000 characters (excluding spaces)
- The main author (presenter) confirms that all authors are aware of and agree to the content of the abstract and support of the data presented. By submitting his abstract, the author allows the IFODS to publish and distribute or sell his abstract as part of the Abstract Book, which may be distributed on paper.
- All selected **abstracts** will be published in the abstract book. Papers accepted for IPOSTER presentation will be displayed during poster sessions.
- Acceptance or rejection of the paper by the Scientific Committee will be notified by email to the main author (presenter) by April 26th, 2018
- Only persons whose registration is complete will be able to present their **abstracts**
- IPOSTERS will be awarded or encouraged: a special jury will select the three best posters and their authors will receive the SOMPS Poster Award and a cheque of 500€ each.
