

Journée Louise Harel

“Evolution and Cancer in 2019”

Thursday, February, 07, 2019

Curie Institute, Conference Room Constant Burg, Paris, France

Definitive Program

08.45 - 09.00	Welcoming the participants	
09.00 - 09.30	Introduction Manuel RODRIGUES, President of the Société Française du Cancer Frédéric THOMAS, Director of Research of the CNRS	
	Conferences	
09.30 - 10.05	Carlo MALEY	<i>Leveraging evolution and ecology to control cancer</i>
10.05 - 10.40	James DeGREGORI	<i>The evolution of cancer as we age – not so inevitable</i>
10.40 - 11.15	Kenneth PIENTA	<i>Applying Optimal Foraging Theory to understand cancer Metastasis</i>
11.15 - 11.35	Coffee break	
	Conferences	
11.35 - 12.10	Susanne SEBENS	<i>Dormancy: an evolutionary key phenomenon in cancer development</i>
12.10 - 12.45	Beata UJVARI	<i>The ecology and evolution of transmissible cancers</i>
12.45 - 14.00	Lunch (1h15)	
	Conferences	
14.00 - 14.35	Joshua SCHIFFMAN	<i>Evolutionary medicine and the search for better cancer therapy</i>
14.35 - 15.10	Robert GATENBY	<i>Talk on Adaptive Therapy</i>
15.10 - 15.45	Joël BROWN	<i>The Evolutionary and Ecological Contexts of Adaptive Therapy</i>
15.45 - 16.05	Coffee break	
	Conferences	
16.05 - 16.40	Nicholas MACGRANAHAN	<i>Lung Cancer Evolution and Immune Evasion</i>
16.40 - 17.15	Conclusion Robert GATENBY & Carlo MALEY
