Dear Friends,

We are pleased and honored to report that the Fifth Edition of IFODS will be held in Paris from 22-24 June, 2022. The Fourth Edition has faced an important success, with over 577 participants (307 in attendance and 270 in virtual). The quality talks and sessions have received such positive feedback across the board that we have decided to go ahead with our plans to create a major national oncology conference, in close collaboration with national oncology societies and leading international experts. Regarding the setting of International meetings in 2022 and according to the current sanitary crisis, we have decided to plan our next meeting in June.

Meanwhile, we must continue to promote this conference to grow attendance year after year and to provide sustained excellence in oncology training. This is why we are moving the event to a more central and accessible location in Paris. This venue is even more conducive to dialogue and communication, everything being on the same floor where partners and attendees can interact, the meeting rooms all around, or the auditorium for plenary sessions.

We are looking forward to welcoming you at the Rive Montparnasse business center, which is very close to Montparnasse train station.

As in previous editions, the French Cancer Society (SFC) is working alongside IFODS to organize a special opening session on the Future of Oncology, with contributions from scientists and young oncologists. Institution like EACR is also expected to provide renewed support.

IFODS seeks to promote the efforts of all who fight against cancer, by sharing the best and latest developments in oncology as well as best practice guidelines. In line with this objective, IFODS is delighted to welcome Biotech Societies and also patients and patient groups to its Science Committee meetings and to a number of sessions. The conference will provide these honored guests with opportunities to learn about therapeutic approaches and to confer with healthcare providers.

France is a key player within the global field of oncology and, as such, deserves a world-leading conference on a par with its excellent level of care.

Please join us in Paris from 22-24 June, 2022, for the Fifth Edition of IFODS. As always, pride of place will go to training, dialogue, sharing and excellence in science, in a warm and friendly environment. Thank you in advance for your support and participation.

We hope to see you there!

We wish you to all of you an Healthy and Happy New Year

With kind regards,

**Jean-Philippe SPANO**  
**President of the IFODS Science Committee**

## SUBMISSION GUIDELINES

- **Abstracts** have to be submitted electronically and in English
- **Abstracts** received after the deadline (May 10<sup>th</sup>, 2022) will not be considered
- Supply as much information as possible: the precise subject of study, methods used where appropriate, summary of results obtained, conclusion
- As it is assumed that original work will be presented, no bibliographic references are necessary
- Selected **abstracts** will be published in the abstract book exactly as you submitted it. Therefore, proofreading is essential, no modification will be possible after submission.
- Your **abstract** should not contain accents or any other invalid character, which would not be part of the English alphabet.
- Your **abstract's** text should not exceed 3,000 characters (excluding spaces)
- The main author (presenter) confirms that all authors are aware of and agree to the content of the abstract and support of the data presented. By submitting his abstract, the author allows the IFODS to publish and distribute or sell his abstract as part of the Abstract Book, which may be distributed on paper.
- All selected **abstracts** will be published in the abstract book. Papers accepted for IPOSTER presentation will be displayed during poster sessions.
- Acceptance or rejection of the paper by the Scientific Committee will be notified by email to the main author (presenter) by May 14<sup>th</sup>, 2022
- Only persons whose registration is complete will be able to present their **abstracts**
- IPOSTERS will be awarded or encouraged: a special jury will select the three best posters and their authors will receive IFODS Poster Award and a cheque of 500€ each.
